ABOUT US

Functionality is a priority – fun follows close by. We strive for our designs to be used, looked at and talked about.

We were established as a glass factory in 1974 and have comprehensively evolved into a modern design house. By guarding and developing the know-how that we acquired from decades of production experience, we endeavor to learn and master more materials. In addition to our brand collection, we create license products, starred by some of the most well-known and beloved fairytale characters, which take you one step closer to the magical world of stories and adventures.

Fundamentally our roots lie in the Nordic countryside and in the Finnish folklore, where everything has a story, and nothing is impossible.

MUURLA BRAND COLLECTION

All our products are designed in Finland by our in-house designers. The inspiration to our collections derives from pure nature, four seasons and the desire to meet the needs of everyday use.

A core part of our design philosophy is ensuring a wide range of use - our cookware can also be used as an eye-catching part of setting and serving. Our enamelware can be used on any kind of stove or source: from induction to open fire. Our vases are often a combination of a classic flower vase and candle holder. A wide range of use ensures that our products are truly part of everyday life.

BAGEL

The Bagel is a hybrid between a vase and lantern. The item consists of three separate pieces that can be used as a lantern or vase - which ever option suits you best. Use the bottom part with the middle part for a votive candle, or all three pieces to form a vase suitable for small bouquets. The bottom part is made of concrete and glass parts from durable, heat resistant borosilicate glass.

MUURLA x TEEMU JÄRVI

Near nature, by your side

Far up the Finnish north in Lapland way beyond the arctic circle, there is a place called Savukoski where a man has secluded in his hut for inspiration. Over the world he is known as Teemu Järvi, a Finnish artist. However, in the wilderness of Lapland, he is just another lifeform surrounded by the seemingly endless counts of other living creatures and things.

Muurla x Teemu Järvi brings the wonder of nature to homes. The unembellished Nordic style of Järvi comes from traditional ways of making art, like using a reed pen which Järvi makes from the scratch himself. With the timeless design of Muurla, becomes a combination which bows beautifully yet humbly towards the Nordic nature.

Pack your things and take a trip to the nature of Finland. Venture into the midst of the forest, and the true look of the world appears. There is a deep harmony, and you get to breathe in the middle of it. If you're lucky, you just might encounter all kinds of creatures that share the earth with us.

MOOMIN BY MUURLA

Our collaboration with Moomin Characters began in 2009, and ever since we have had the joy and honor to design and produce a wide range of Moomin items - from interior decoration pieces to setting and serving.

Tove Jansson's beloved Moomin tales and illustrations are a never ending source of inspiration for us. The themes in the tales are timeless and universal - friendship, love and the respect towards differences in all of us. Up until today, decades after their creation, they still have a lot to teach us.

HATTIFATTENERS' GARDEN

Hattifatteners are mysterious little creatures from the Moomin stories. They grow from little white seeds – but only if the seeds are sown on Midsummer's Eve! Muurla has created a collection of greenery and gardening accessories with a Hattifattener theme. Keep an eye – Hattifatteners are known to be restless wanderers whose only motivation in life is to keep moving towards the horizon.

MOOMIN 80 ANNIVERSARY

2025 marks 80 years of Moomin stories. It all began with the first Moomin tale, The Moomins and the Great Flood, published in 1945. A consoling and adventurous story about a displaced family and their quest to find a home, it ends in what will become known as Moominvalley, with its iconic blue house. It is a joyful place where everyone is welcome, a true symbol of a sense of belonging. The door is always open.

SAILORS

Sailors Ahoy! Moomin Sailors is a collection with a nautical white and blue colour theme spiced with some lovely Moomin details. Tove Jansson simply loved the sea and the archipelago - and the sea has an important role in her stories and illustrations. The Sailors collection is inspired by the comic 'Moomin and the Sea'.

MOOMIN FOR PETS | MOOMIN 80 ANNIVERSARY

2025 marks 80 years of Moomin stories. It all began with the first Moomin tale, The Moomins and the Great Flood, published in 1945. A consoling and adventurous story about a displaced family and their quest to find a home, it ends in what will become known as Moominvalley, with its iconic blue house. It is a joyful place where everyone is welcome, a true symbol of a sense of belonging. The door is always open.
